Serpentine 30"		7.25
Umbrella Table 42"		25.00

SEATING INFORMATION

Rule of Thumb *

For estimating seating capacity per sq. ft.:

For Banquet Style Seating -

When using oblong tables, divide the room area (sq. ft.) by **8**.

When using round tables, divide the room area (sq. ft.) by **10**.

These figures are for maximum seating. If space is available for more comfortable seating, allow 2 sq. ft. per person.

ROUND

OBLONG

Aside from main traffic aisles, allow 54" between round tables for chair and service space and 60" between oblong tables where seating is back-to-back. This allows 24" service space behind 18" chair depth.

For Classroom Style Seating-

Divide "student" seating area (sq. ft.) by **8**.

For Theater Style Seating-

Divide "spectator" seating area (sq. ft.) by **6**.

CLASSROOM

THEATER

Where food service is not required and seating is at one side of the table, allow 36" between tables. While this may vary with the degree of aisle comfort required, 36" distance between rows of chairs is will suffice.

TENT ACCESSORIES

Carpet (per sq. ft.)	.50
Gutters	10-30.00
Lighting:	
Perimeter String (per ft.)	.55
