BROILMASTER® Independence Charcoal Grill

The secrets to cooking with charcoal lie in how well you regulate the flow of air into the grill; and how well you control the heat and smoke as it surrounds your food.

The INDEPENDENCE starts with a large grill head cast in 1/4" thick aluminum, which heats quickly and evenly, and then helps you maintain a consistent cooking temperature - no matter the weather. This tall grill head, with its adjustable cooking grids, maximizes the available volume to give you the freedom to tackle any size meal - from burgers and brats to a 20-lb. turkey with stuffing on the side. All of the temperature control components are laser cut from restaurant grade 304 stainless steel (12-gauge) for long life and precise control. The Precision Probe Heat Indicator is accurate from 100 to 700° F and can even be recalibrated to help ensure consistent results. And when you finish grilling, simply close the gasket-sealed lid and shut the Air Intakes and Top Vent to quickly smother the fire - saving any remaining charcoal for your next cookout. **PORTABLE**, includes cart, heavy-duty castors and side shelf.
