Introducing The UltraCraft Difference!

ultracraft[®]
cabinets for life

At a quick glance, all cabinets look pretty much the same.

We invite you to take a closer look. Compare UltraCraft Destiny's full-access construction to typical face-frame cabinetry and see the value. Here are a few of the benefits UltraCraft cabinets offer...

- An American company with its manufacturing facility located in North Carolina.
- Custom modifications at no extra charge.
- Up to 15% more interior storage space than face frame cabinets.
- Soft close hinges and wood dovetail drawers with soft close - no upcharge.

CUSTOM CABINETRY

Top Of The Line Custom Cabinetry

Mouser offers cabinetry designed exclusively for your needs. Quality construction, premium features, and attention to detail. Hutch cabinets, entertainment centers, bookcases, and wet bars are just a few cabinets that you will be proud to call your own.

Cosmos Quartz

is a perfect blend of the latest polymeric technology combined with the beauty and durability of Natural Quartz. This blend creates a final product performing as a superior and versatile surface, functional for both residential and commercial countertop application.

Cosmos Quartz surfaces are extremely durable and very easy to maintain. The natural quartz coupled with the latest technology in stain-resistant polymers result in a non-porous, heat, abrasion, and chemical-resistant surface. No maintenance or sealing required. Clean your Cosmos Quartz surface with a mild, non-abrasive cleaner.

Go Green!

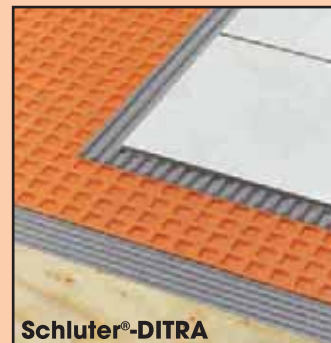

Bostik TruColor™ Pre-Mixed Grout is a patented, water-based, urethane grout offering the ultimate in color accuracy, stain protection and crack resistance for residential and commercial tile installations. This breakthrough formulation installs up to 50% faster than traditional grouts and never needs to be sealed. Its perfect balance of flexibility and toughness enables it to exhibit unmatched performance and crack resistance. Let Von Tobel experts tell you more about TruColor Grout!

Consistent Color Every Time

- No Sealing Ever!
- Ready To Use
- Crack Resistant Flexibility
- Blockade Antimicrobial Protection

Innovative Installation Systems for Tile and Stone

Schluter®-DITRA

Ceramic and stone tiles are durable, easy to maintain and hygienic, representing the ideal surface coverings. However, today's lightweight construction methods can make the installation of hard surface coverings particularly challenging. In order to protect the integrity of the tile assembly, an underlayment that performs multiple functions is required.

Schluter-DITRA is a polyethylene membrane with a grid structure of square cavities, each cut back in a dovetail configuration, and an anchoring fleece laminated to its underside. Schluter-DITRA is bonded to the substrate using thin-set mortar. The anchoring fleece on the underside of Schluter-DITRA is fully engaged in the mortar to provide a mechanical bond to the substrate. Tile is installed over Schluter-DITRA using the thin-bed method in such a way that the mortar becomes mechanically anchored in the square, cutback cavities of the matting.

Find out more about the innovative new Schluter Systems from the experts at Von Tobel Lumber!
