

# DOG TRAINING

## RALLY EXCELLENT (AKC)

(6 DOG MAXIMUM)

**\$90 FOR 6 WEEKS**

This class will teach the skills needed for the AKC Rally Excellent title. Rules and regulations and handling tips will be covered. There will be a course walk-through at start of class and then dogs will work one at a time. All Excellent signs will be covered and put into courses to run. This class may be worked on or off leash, however, if the handler does not have control on the dog without the leash, the dog will not be allowed off leash. At any time the dog is not actually taking its turn and doing the course, it will be required to be on leash. If the dog has not already earned a qualifying leg towards a Rally Advanced title, it will be required to do the course on leash during this class, unless the instructor feels the handler has control on the dog without a leash.

Dog and handler must have completed a Rally Novice Title and have earned one qualifying leg towards a Rally Advanced title; or completed one full session of the Pawformance Rally Obedience Advanced class. The dog must be able to heel, come front, do right and left sided finishes, stand, sit, down and stay on a loose lead or with minor correction for the

Rally Obedience Excellent class.
