spring is here and the
building season
is upon us!

ModernView Composite Decking

Create Your Outdoor Haven with ModernView Decking

ModernView is the name behind expert independent lumberyards focused on innovation brought on by the demands of building professionals and discerning homeowners. Features a new embossing technique that minimizes the buildup of dirt & debris and better simulates the look of wood boards.

Durapine by Cox

Treated wood and decking is a premium non-arsenic based effective treatment against termites and fungal decay, both above ground and in ground. Durapine has become the most successful alternative to CCA treated wood and is ideal for multiple residential and industrial applications.

Changing the Face of Decking®

From the deckboards to the substructure, trim and beyond, CAMO provides easy and affordable fastening options. CAMO Fasteners are designed to work with solid or grooved treated lumber, hardwood, cedar, composite or PVC deckboards; and whether you prefer to blend into the surface with color-matched face fasteners, or desire hidden fasteners for a fastener-free deck surface. 345001, 015, 020, 124, 144
