

Pavilions

Outdoor Living at its Best

The Perfect Destination.

Hampton Pavilion

"We truly **love** the pavilion we sit out in the early morning with our coffee and just **enjoy the beauty** of it. It is the final piece to make our pool area look like it is featured in a home and garden magazine. The setup was **flawless**, and all the pieces fit perfectly. In closing, I thought my pool area was beautiful before the pavilion, but as I said it was the final piece to Shangri-La." ~ Bob & Mary

and enjoy the outdoors more!*

Hampton Pavilion Standard Features

Our Hampton Pavilions are made from #1 grade treated southern yellow pine and sleeved in high quality vinyl. The Hampton comes standard with attractive 10" round columns with solid wood posts inside. The posts come with powder-coated anchor brackets at the base of each column to attach directly onto your concrete pad or a wood deck. Our decorative post trim covers all the connections for a clean appearance. The arched headers add charisma and are designed to support heavy roof loads, and resist high winds. The headers are trimmed with our decorative dental molding and feature a 12" roof overhang. The ceiling is made of a beautiful 1x6 tongue and groove, stained mahogany for a rich appearance. The steeper roof pitch adds character and is constructed with double 2x4 main rafters and covered with architectural asphalt shingles. Our rectangle Hampton Pavilions are engineered to withstand 140 mph. winds and 45 pounds per square foot snow loads. All this is standard when you choose a Hampton Pavilion for your outdoor retreat.

Vinyl Pavilion Standard Features

Our Vinyl Pavilions are made from #1 grade treated southern yellow pine and covered in high quality vinyl. Our posts are built with a heavy-duty wooden 6x6, inserted into a low-maintenance vinyl sleeve. Each post comes with a powder-coated bracket at the base to attach directly onto your concrete pad or wood deck, and is covered with a decorative skirt for a finished look. The enhanced arched braces add the stability needed to resist high winds. Our decorative post trim covers all the connections for a clean appearance. Engineered headers are built with 4 ply 2x8s to span up to 16' long without sagging. The roof is engineered with double main rafters for structural integrity. We use beautiful 1x6 tongue and groove boards for the ceiling, stained mahogany for a rich appearance. The roof comes with architectural asphalt shingles. Our Rectangle Pavilions are engineered to withstand 140 mph. winds and 45 pounds per square foot snow loads. All this comes standard on your Vinyl Pavilion, and is ready to be assembled on site for your next event.

Wood Pavilion Standard Features

Our Wood Pavilions are made from #1 grade treated southern yellow pine. All boards are hand-selected for the best possible appearance. The wood is unfinished and ready for you to stain or paint, or you can choose from one of our optional stain and paint colors. The 5x5 posts are laminated to resist warping and checking. The posts come with a black powder-coated bracket at each base to attach directly onto your concrete pad or wood deck, and are covered with a decorative skirt for a finished look. The 2x6 half-moon braces add beauty, and lateral strength to resist high winds. Our decorative post trim covers all the connections for a clean appearance. Engineered headers are built with 3 ply 2x8s to span up to 16' long without sagging. The roof is engineered with double main rafters for structural integrity. We use beautiful 1x6 tongue and groove boards for the ceiling, covered with architectural asphalt shingles. Our Rectangle Pavilions are engineered to withstand 140 mph. winds and 45 pounds per square foot snow loads. All this comes standard on your Wood Pavilion for a strong and beautiful structure to give you the perfect oasis for outdoor entertaining.

Kits and Assembly Manuals

All pavilions come standard as a kit. Our pavilion is broken down into an easy to assemble kit. Everything is included with the kit to install the pavilion such as the screws, hardware and brackets. The kit also includes a copy of a step by step assembly manual for easy installation.

Built to Engineered Specifications & Engineer Seal

*All standard rectangle pavilions are built to spec and meet a standard Engineered specification of 140 mph. winds and a 45 lb. snow load as standard. With an additional cost, we can also offer construction plans that are certified and sealed by a licensed engineer in your state. Includes a set of sealed drawings for both you and your township.

* Excludes Custom Pavilions. Engineering is available for custom pavilions at an additional cost.

Imagine the Possibilities!

Create it your way!

Whether you are looking for a place for entertaining, a backyard theater, a kitchen, or just a special place for you to get away, our line of pavilions offer a variety of styles and features to fit your lifestyle. Just choose the options and features you want, to create a custom look that matches your outdoor setting.

"Thank you for giving us exactly what we were looking for. We appreciate the **attention to detail** and your patience with us choosing the finishes we wanted. We are so glad you were able to fit the **custom options** we wanted into your design." ~ Peter & Victoria
