FALL PREPARATION FOR A WARM AND COZY HOME

METAL ROOFING

Protect what's important to you with a metal roof from ASC Building Products. The safety of a non-combustible fire rated roof and the ability to stand up to the harshest elements simply make an ASC Building Products' steel roof one of the hardest products on the market. Steel's superior durability makes it significantly less expensive to own over the life of your house. All residential profiles (excluding Iron Ox) are offered in our exclusive DuraTech® energy-saving Cool Color paint system. ASCBP confidently backs our DuraTech® paint system with a limited-lifetime warranty, protecting and beautifying your home for years to come.

Come home to Andersen.

ANDERSEN® 100 SERIES WINDOWS

Made with our patented, revolutionary Fibrex® composite material to give you a window that is durable, environmentally responsible, energy efficient, and available in deep, rich colors. They are available in classic rectangle shapes or with arched tops for added elegance.

MOULDINGS

From the clean sophisticated lines of painted trim to the timeless quality of solid wood, mouldings are the final touches that enhance any room with a finish that expresses your personal style.

The decorating possibilities are infinite. Revive a room by replacing the casings and baseboards, or add a "wow" factor with a crown or chair rail. Mouldings can take a room or an entire home from flat to fabulous in no time at all.

INTERIOR DOORS

The whole feeling of a room can change based on the interior doors you choose. Open up the sense of space within a room with a mirror door. Or add natural light to a room with glass panel or French doors. And remember that closet doors, bifold doors and pocket doors can be changed to complete your transformation.
