Premium 36" Clean-Face Traditional Tahoe

Includes a tempered glass view window and a unique burner that delivers a rich flame pattern. Each log is hand painted for stunning realism with detailed bark, knots and charring.

Ceramic Fiber Liner options for Premium models include a traditional Aged Brick with smoky highlights, and an old-world Rustic Brick. Or choose the deep black polished porcelain-steel liner that reflects the flames for a luxurious effect.

The available lighting kit draws attention to the intricate details in the log set and brick liner - even when no fire is burning. You can enhance heat distribution with the optional variable-speed blower. Both the light and blower include dimmer controls.

26,000 BTU. 4 x 6-5/8 top vent only. Includes brick liner, log set and barrier screen. (33541) MFG# DVCP36BP

Innsbrook Traditional

A Direct-Vent Fireplace Insert turns your existing wood-burning fireplace into an efficient gas-fired heat source.

A wood-burning fireplace sends more than half of its heat up the flue, creating negative pressure in your home, which draws in outside air through gaps in doors and windows that actually makes your home colder. A wood-fire can also create ash and fumes that dirty your home and aggravate your allergies.

We offer our traditional Innsbrook Direct-Vent Inserts in two sizes - medium and large - to fit most wood-burning fireplaces. Choose Millivolt ignition with standing pilot to provide heat, even in the absence of electric power, or our Green Earth Preferred Intermittent Pilot, which eliminates the standing pilot to save even more energy. IP systems can operate with a standing pilot during power outages.
