Vinyl-Poly Wood Combination Arbors

The classic styling of these wood alternative structures complements your garden's natural style and adds an elegant focal point to any walking path.

Fairfax Ranch Arbor (item A18): Opening width 48", depth 35", square lattice.

Berkeley Heights Arbor (item A19): Opening width 48", depth 35", square lattice.

The Countryside Estate Collection has been created by our designers using the long lasting material combination of poly lumber and vinyl encased wooden posts. This material selection allows us to not only produce classic styles which are strong and durable, but they are virtually maintenance free.

- Our arbors are environmentally friendly. The majority of the material is made from recycled plastic.
- The color will not fade. A UV inhibitor is added to the vinyl to protect it from the sun's ultraviolet rays.
- They keep their great appearance for many years. Periodic cleanup can be done with soapy water and a soft bristled brush.

Decorative Lattice Fencing and Gates

A. Arbor Gates - Fit opening widths of 45" or 60". Choice of diagonal or square lattice (item A46 shown)

B. Wing Extensions - Sold as pairs, each piece 28" wide including end post. Choice of diagonal lattice (item A41) or square lattice (item A40).

C. Lattice Fencing - Each section is 72" wide, standard height of 51". Choice of diagonal lattice (item F01) or square lattice (item F02). Each fence section comes with one 74" post.

Wood Arbors

New England Round Top Arbor: Opening width of 45" (item A03) or 60" (item A04), standard depth 28" or 40". Shown with optional wing extensions (item A41) and gates (item A46). Choice of diagonal or square lattice.

New England Round Top Arbor
Item A04

Colonial Straight Top Arbor: Opening width of 45" (item A10) or 60" (item A12), standard depth 28". Shown with optional wing extensions (item A40) and gates (item A47). Choice of diagonal or square lattice.

Colonial Straight Top Arbor
Item A10

Victorian Round Top Arbor: Opening width of 45" (item A01 and A05) or 60" when extension is added (item S60). Standard depth 28". 60" opening width shown with optional wing extensions (item A41) and gates (item A48). Choice of diagonal lattice/gothic posts or square lattice/estate posts.

Victorian Round Top Arbor
Item A05

**** Arbor Anchor kits are available. Please order separately.**

Swing and Bench Arbors

Lakeside Swing Arbor: Opening width of 80" (mid 2009 design change to 70"), approximate roof depth 48" (item A09). Swing ordered separately – shown with English style 5' swing (item C25). Diagonal lattice.

Grandview Bench Arbor: Opening width of 60", depth 40" (item A17). Can be ordered without bench kit (subtract item A68). Diagonal lattice standard.

Petite Arbor

Petite Arbor: Opening width 36" (item A06), depth 25", diagonal lattice.

Vinyl - Poly Garden Swing

Garden Swing (item P41): Garden Swing with adjustable canopy cover (item P42). Shown with English Swing (item P24) available in green or burgundy.

- Arbors -

Each kit comes with everything necessary for installation and can be easily completed by one person. Fasteners used are screws and bolts which come included with the arbor; some kits also require the use of a construction adhesive. Assembly time generally takes 15-60 minutes depending on the model purchased. Each kit includes detailed instructions.

- Material -

The material used is all premium grade (C&btr) preserved pine and kiln dried after treatment. Your structure is ready to be stained or painted upon delivery and can be matched to your existing landscape color scheme, or it can be left unfinished. If left unfinished, it develops a silvery gray appearance. It will resist moisture, insect and fungus damage, and look great for years of service.

Pergolas Kits

Countryside Freestanding Pergola

Standard stocked kit sizes

- 8'x8' (item A21)
- 8'x10' (item A22)
- 8'x12' (item A23)
- 10'x10' (item A24)
- 10'x12' (item A25)
- 12'x12' (item A26)

Important Kit Information

1. All sizes are given as spacing between the posts. The top measurement of freestanding kits is approximately $3\frac{1}{2}'$ greater than post spacing. Example: 8'x8' top measurement is approximately $11\frac{1}{2}'$ x $11\frac{1}{2}'$.
2. Overall height is 101 inches.
3. Custom designed lattice enclosures can be ordered for your pergola. Ask your sales assistant for more information.
4. Pergola anchor kits must be ordered separately.

Countryside Wall Mount Pergola

Standard stocked kit sizes

- 8'x8' (item A31)
- 8'x10' (item A32)
- 8'x12' (item A33)
- 10'x10' (item A34)
- 10'x12' (item A35)
- 12'x12' (item A36)

Custom Size Pergola Kits

We will gladly make any width freestanding or wall mount pergola kit needed. Widths between 12' and 16' require a spliced beam; widths of more than 16' require additional posts. Ask your sales assistant for more information.

For all wall mount units please provide depth measurement needed (distances between wall and front of post) and width measurement (distance between outside of front posts). Allow 6-8 weeks for delivery of custom size kits.

Countryside Woodcraft Arbors

Our distinctive arbors create an elegant focal point in your garden or yard. They have been featured in fine gardens and public spaces throughout the United States, Belgium, the United Kingdom and South Korea. Part of our Countryside Collection, they have been designed by master gardeners and are frequently incorporated in the designs of many professional landscapers. Built by Lancaster, PA area woodworkers, our arbors are superbly crafted and substantial.
