

# Your Guide

to Window and Door Replacement  
Compliments of Marvin Windows and Doors

# Thanks for your interest

in Marvin Windows and Doors, America's largest manufacturer of made-to-order wood and clad-wood windows and doors.

We're pleased to offer you this guide to window and door replacement.

All our windows and doors offer the beauty, warmth and superior performance of natural wood.

Wood windows and doors look better, last longer and are more energy-efficient and environmentally sustainable than vinyl and all-aluminum products.

Marvin also offers the option of extruded aluminum cladding on many of our window and door exteriors. Applied over the natural wood frame, our heavy-duty aluminum cladding combines the thermal efficiency of wood with the reduced maintenance of aluminum - all with a commercial-grade Kynar finish that's as durable as it is beautiful.

**03** New Windows & Patio Doors

**04** Is It Time to Replace?

**05** Benefits of Window Replacement

**09** How Do I Get Started?

And every Marvin window and door features nothing but beautiful, natural wood on the interior surfaces of your home.

This replacement guide isn't intended as a how-to manual for do-it-yourselfers, but rather as a helpful collection of things to consider as you plan window or door replacement in your home.

Keep it online or print it out and use the handy checklists and notes sections. We hope this information helps you choose the right replacement windows and doors to create a more efficient, more livable, more enjoyable home for you and your family.

## Is it time to replace my windows and doors?

Check each window and door in your house against this list. If you find yourself with any of these problems, it's a sign that your home could benefit from new windows and doors.

yes no

- Do your windows or doors stick?
- Are they locked or painted shut?
- Do they move smoothly?
- Is the hardware rusty, too tight, too loose or difficult to operate?
- Are your furniture, rugs or flooring fading from the sun?
- Do you feel cold drafts?
- Are your windows single-pane (one layer of glass)?
- Is your double-pane window more than moderately cold to the touch on very cold days?
- Do you have water stains or peeling paint?
- Are your windows rotting or showing excessive moisture condensation?
- Are you forced to prop open a window?
- Are your windows and doors tired-looking and out of style?

# Benefits of window replacement with Marvin Windows and Doors

## Energy Efficiency

Windows and doors are the biggest energy losers in a typical home

New windows can save you 15-25% on your monthly heating and cooling bills - that's \$350-450 a year or more for a typical household

Wood windows, or wood windows with aluminum exterior cladding, are more energy-efficient than vinyl or all-aluminum windows

Every Marvin window is hand-crafted and built to exactly fit your existing opening. Better fit means less energy leakage

Guaranteed 20 years against seal leaks

Your Marvin dealer can recommend the best glass choice for your climate

Energy-efficient glass options include:

- » Double-pane with argon gas
- » Hi-R Tripane: Features two layers of Low  $\bar{E}$  glass with a clear center pane
- » Low  $\bar{E}^2$ : Features double metallic coating on the inside glass surface to reflect or absorb the sun's warmth and reduce damaging UV rays
- » Low  $\bar{E}^3$ -366<sup>®</sup>: Featuring three metallic layers of silver, this glass rejects solar heat. Recommended for warm climates where cooling costs are high and also for areas with intense exposure to the sun

Most Marvin products are certified for energy efficiency in all regions of the United States by the federal ENERGY STAR program. Look for the ENERGY STAR label for your assurance of top performance

And look [here](#) for a list of Marvin windows and doors that qualify for ENERGY STAR and the federal energy tax credit.

# Benefits of window replacement with Marvin Windows and Doors

Marvin products qualify for federal energy tax credit

See Marvin products that qualify for the [federal energy tax credit](#)

The National Fenestration Ratings Council, an independent ratings organization, has [more information](#) on energy efficiency

## Energy Tax Credit

You can qualify for a federal tax credit of up to \$1,500 on new, energy-efficient windows and doors. Marvin has more qualifying products than any other manufacturer, and your Marvin dealer can help you choose beautiful, durable new windows and doors that meet the tough federal requirements. This handy checklist shows the three items you'll need to file for the tax credit.

### Tax Credit Requirements

- Purchase Receipt
- All NFRC/Energy Star labels from the windows and doors
- Print and file the Manufacturer's Certification Statement pertaining to the American Recovery and Reinvestment Act of 2009 available at [Marvin.com](#)

For more information on the Energy Tax Credit, visit your local Marvin dealer or [Marvin.com](#)

# Benefits of window replacement with Marvin Windows and Doors

## Aesthetics

Add curb appeal and architectural interest

Add resale value - a high-end window replacement typically returns 85% of its value on resale, making it one of the most cost-effective home improvements

Change the look of your home or improve your current look. Try out your own ideas with our [personalized design tool](#)

Lighter, brighter living spaces

Create a seamless indoor/outdoor living space with patio doors

Precisely match your existing windows

Our experienced craftsmen produce flawless fit and finish - not only on the windows themselves, but on casings and trim

# Benefits of window replacement with Marvin Windows and Doors

## Performance

Marvin windows are guaranteed for 10 years

Wood is more durable than vinyl, performs better than all-aluminum windows

Marvin's heavy-duty exterior aluminum cladding options, fitted precisely over a wood frame, virtually eliminate the need for maintenance

Other options include tilting, sash removal or swiveling for easy cleaning

Marvin's robust, durable hardware performs flawlessly, even with the largest window sizes

New windows and doors provide greater safety and security

The Design Pressure rating measures the amount of pressure a door or window will withstand when closed and locked. Each DP rating also establishes other performance factors such as water penetration; air infiltration; structural pressure; forced entry; and operational force. The higher the DP numbers, the better the performance. Look for the certified hallmark of the Window and Door Manufacturers Association

# Choosing the right replacement window for you

Your choices are virtually limitless. Marvin offers thousands of frame, glass, hardware and cladding combinations. And every Marvin window features a beautiful, natural wood interior.

It's easy to get overwhelmed. To help narrow your choices, consider your preferences in these areas.

## Window types

### Double Hung

- » Features two sashes that slide up and down
- » Often found in older homes
- » Offers a traditional look
- » Marvin offers tilt mode for easy washing
- » Look for a double hung with an all-wood interior

### Casement

- » Opens outward, like a book
- » Excellent choice where egress (exit) is needed for safety reasons, such as a bedroom
- » Marvin's hardware opens with fewer cranks, features commercial-grade durability for smooth, long-lasting performance
- » Can be designed to simulate the look of a double hung
- » Marvin's exclusive wash mode lets you clean the outside of windows from inside the house

### See a video demonstration

- » Marvin offers both crank and push-out styles

### Awning

- » Hinged on top
- » Designed to circulate air without exposing your room to elements such as light rain
- » Works well in combination with a large, fixed window
- » Marvin offers both crank and push-out style

### Round Top

- » Offers a beautiful, distinctive look
- » Adds elegance and individuality to your home
- » Choose single window or multi-window assemblies
- » Marvin offers more round top styles and sizes than any other manufacturer
- » Like all Marvin windows, our round tops are individually crafted by hand

### Tilt Turn

- » Popular European style
- » Tilts in like a window or swings open like a door
- » Offers egress
- » Can simulate look of a double hung

### Design Solutions

- » Marvin's [Signature Products and Services](#) can build one-of-a-kind solutions
- » No job is too complex
- » We'll make your dream a reality, even if all you have is a sketch

# Choosing the right replacement door for you

## Door types

### Sliding door

- » Saves space
- » Lets you bring the outside in
- » Large glass area for natural illumination
- » Low-profile sill for good looks, better accessibility
- » Available in sliding French style for classic look
- » Ask about multi-point locking system
- » Energy-efficient glass options qualify for \$1,500 federal tax credit

Sliding Patio Door

Sliding French Door

### Swinging door

- » Classic look
- » Available in Arch Top styles
- » Graceful lines complement any decor
- » Ask about Design Pressure rating - most Marvin doors are rated at higher commercial grade
- » Engineered for long life and smooth operation
- » Outswing Door ideal for areas with high traffic or limited interior space

Arch Top French Door

Ultimate Inswing French Door

### Entry door

- » Choose patterned or decorative glass
- » Available with multi-point locking system
- » Provides security and protection from air and water infiltration
- » Marvin offers countless design possibilities for any home
- » Sidelites and round top windows allow natural illumination in entryway
- » Wood choices include Honduran Mahogany, Cedro Macho, White Oak, Walnut and Cherry

Traditional

# Choosing the right replacement window for you

## Style

[Click here to view Bow Window](#)

[Click here to view Picture Units](#)

[Click here to view Ultimate Double Hung](#)

### New appearance

Do you want to keep your home's existing look or create a new appearance?

### Create space

Have you considered replacing an existing window with a bow or bay window, to create space and add visual appeal?

### History

Is historical accuracy important to you?

### Grilles

Do you like grilles or "lites" (divides the glass into multiple smaller panes)

# Choosing the right replacement window for you

## Difference between full frame replacement, insert and sash replacement

Your Marvin dealer or Authorized Installing Retailer can help you decide which replacement option is best for your home. Find your dealer [here](#).

No matter whether you choose full frame, insert or sash replacement, Marvin's countless design options and precise, made-to-order construction allow you to seamlessly match the existing windows in your house

Our wood windows set the industry standard, while our heavy-duty aluminum cladding and commercial-grade Kynar finishes assure you of years of trouble free enjoyment

### Insert

Insert replacements are installed into the existing frame. The exterior and interior trim of your house are not disturbed

### Full Frame

Full frame replacement is used when the entire window is badly deteriorated or out of square. The sash, frame and casing are all replaced. This requires interior and exterior trim to be removed and replaced

### Sash

Sash replacement, such as Marvin's Tilt Pac system, is the least intrusive and involves only the sash - the panel of the window that moves up and down - and hardware

# Choosing the right replacement window for you

Exterior: wood or clad?

## Wood

- » Offers traditional warmth and appearance
- » Greater choice of stains and colors
- » Exceptional thermal efficiency
- » More beautiful, durable and sustainable than vinyl or all-aluminum
- » Choose from 8 wood species, including pine, white oak, mahogany, cherry and Douglas fir

## Extruded aluminum cladding

- » Extremely durable and low-maintenance exterior
- » Precision fitted over a wood frame for greater thermal efficiency than vinyl or all-aluminum windows
- » Marvin's extruded aluminum cladding is superior to competitors' roll form cladding
- » Marvin cladding: the thickness of a quarter. Competitors' cladding: the thickness of a soda can
- » Comes in 19 colors
- » Commercial-grade Kynar finish resists fading
- » The interior - the part you'll see inside your home - shows the beauty of natural wood

## Sample casing styles

Casing is a decorative covering for the area where the window joins the wall. Marvin casings are factory-applied; they give durable protection to your windows and add visual appeal.

# Choosing the right replacement window for you

## Thinking green

You can buy Marvin with confidence that you're dealing with a company committed to energy efficiency and environmentally sound business practices

- » Marvin products can meet federal ENERGY STAR requirements in all four ENERGY STAR regions
- » Marvin's durability is an important aspect of sustainability. Longer product life means less waste, fewer resources used
- » Marvin supports sustainable forestry management and is committed to conserving natural resources, including efforts to preserve old growth and ancient rain forests. Learn more about our [sustainable forestry practices](#)
- » Marvin has been recognized for its recycling and environmental stewardship with the Minnesota Governor's Award, the Greener North Dakota Award and the Minnesota Waste Wise award

# Advantages of Marvin's "Built around you" approach

- » Marvin builds every window to your exact specifications
- » Made to order, not stockpiled
- » Fit and finish are precise
- » Better fit means better performance, more durability, more efficiency
- » Marvin offers countless design possibilities
- » You choose your style, wood species, hardware, glass - Marvin builds the window exactly as you envision it
- » Marvin's exclusive features add value
  - » Unlimited design capabilities
  - » Custom sizing
  - » Wash mode
  - » Casings
  - » Architectural hardware
- » Wide selection of windows and doors qualify for federal energy tax credit
- » Exact match to your existing windows and doors
- » Windows and doors guaranteed for 10 years - and 20 years against seal leakage
- » A company you can trust: family owned and operated since 1912

[Click here to view Awning](#)

## How do I get my windows?

We suggest you start by locating the [nearest Marvin dealer](#)

Cost will depend on a number of factors, such as:

- » The window replacement process—insert replacement or full frame replacement
- » The number and type of windows and doors required
- » Product options selected, such as glass, casing or grilles
- » Labor to install. [Marvin Authorized Installing Retailer](#) can provide you a complete project estimate.

Marvin's focus is on personal service. We give you up-front estimate and pay attention to every detail

Ask about warranties. All Marvin products carry a transferable [warranty](#). Marvin warranties the product for 10 years and the glass against seal failure for 20 years

## What's the installation process like?

Your contractor will schedule the installation and let you know how long it's expected to take

The contractor will arrive with windows ready to install

If you order Marvin, windows will be carefully pre-measured and built to exactly fit your existing opening

Full frame replacement takes longer than inserts, because of removal and replacement of existing millwork (frames, sills, etc.)

You should expect contractor to minimize mess and clean up afterward

Expect a hassle-free experience:

- » Expert installation
- » Experienced professionals
- » Precise measurements for an exact fit
- » We'll guide you through every step of the replacement process

## After Installation

All that's left is to paint or stain your new windows

Painting or staining can be done before installation, if you prefer

Many contractors will handle this part of the job or will have a dependable subcontractor to take care of it for you as part of their bid

Now, enjoy your new windows!
