

Patriot Blueberry

Vaccinium corymbosum ×

Patriot was selected for home gardeners who desire a cold-hardy, early season variety that bears consistent crops.

Patriot's low growing bush reflects its partial lowbush parentage.

It is adaptable to many soil types and may perform better in wetter soils than many other varieties.

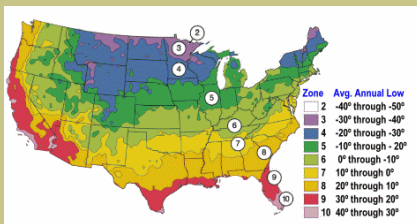

Patriot makes an excellent landscape variety with its showy white blooms in the spring, dark green summer foliage, and fiery orange-red fall colors.

Mature height is 3-5 feet, open and spreading.

Cold hardy to U.S.D.A. Zone 3.
