

# NO MATTER THE SIZE OR STYLE, TOUGH COMES STANDARD.

ULTREX® PULTRUDED FIBERGLASS. THE ULTREX ADVANTAGE.

**Ultrax is quite possibly the perfect building material.** Integrity® from Marvin® introduced Ultrax nearly 20 years ago when we pioneered the fiberglass window and door industry. Made from pultruded fiberglass, it outperforms vinyl and vinyl/wood composite windows in every category. It's eight times stronger than vinyl and withstands close to five times the maximum load of vinyl/wood composites. It's one TOUGH window. And a smart choice as low conductivity means low energy bills and increased customer satisfaction. Choose the toughness and performance of Ultrax fiberglass—the Integrity advantage.

**TOUGH WINDOWS.  
TOUGH TRUCKS.  
WE HAVE THE  
KEYS TO BOTH.**

INTEGRITY® WINDOWS AND DOORS BRINGS YOU THE CHANCE TO WIN A 2013 FORD F-150.
