

## Triple Crown 14% Performance Formula

### A textured feed for a variety of horses with unique needs.

A well-balanced “sweet” feed designed for horses with specific protein needs, especially broodmares, yearlings, foals and performance horses who typically eat grass forage. Because this ration is high in fat and numerous other alternative energy sources, it reduces the amount of feed needed to maintain excellent body condition. In fact, its unprecedented vitamin/mineral fortification will eliminate the need for other supplements. In addition to being formulated with the same triple re-cleaned oats, barley and corn fed daily at many premier race tracks, 14% contains roasted soybeans which are high in fat and have a flavor horses love. Triple Crown 14% now includes Rice Bran as a portion of the total fat level. Available in 50 lb. bags.

### Guaranteed Analysis

Crude Protein (min.)	14.00%
Lysine (min.)	0.75%
Methionine & Cystine (min.)	0.45%
Threonine (min.)	0.50%
Crude Fat (min.)	10.00%
Crude Fiber (max.)	6.50%
Calcium (min.)	0.75%
Calcium (max.)	1.25%
Phosphorus (min.)	0.50%
Magnesium (min.)	0.55%
Iron (min.)	200 ppm
Potassium (min.)	0.80%
Selenium (min.)	0.55 ppm
Zinc (min.)	180 ppm
Manganese (min.)	125 ppm
Copper (min.)	55 ppm
Vitamin A (min.)	6,000 IU/lb
Vitamin D (min.)	1,000 IU/lb
Vitamin E (min.)	180 IU/lb
Vitamin C (min.)	48 mg/lb.
Biotin (min.)	0.34 mg/lb
Lactobacillus Acidophilus Bacteria (min.)	1.75 million CFU/gm
Saccharomyces Cerevisiae (min.)	3.5 million CFU/gm
Cellulase (min.)	150 CMC-ase Units/lb
Protease (min.)	0.60 Northrup Units/lb

### Ingredients

Whole Oats, Cracked Corn, Dehulled Soybean Meal, Cane Molasses, Soybean Oil, Heat Processed Soybeans, Barley, Shredded Beet Pulp, Wheat Middlings, Ground Limestone, Monocalcium Phosphate, Dicalcium Phosphate, Magnesium Oxide, Rice Bran, Distillers Dried Grains, Hydrolyzed Yeast, Zinc Proteinat, Copper Proteinat, Manganese Proteinat, Kelp Meal, Yeast Culture, Hydrated Sodium Calcium Aluminosilicate, Anethole, Fenugreek Seed, Lecithin, Iron Proteinat, Magnesium Proteinat, Dried Trichoderma Longibrachiatum Fermentation Extract, Calcium Carbonate, Selenium Yeast, Dried Lactobacillus Acidophilus Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Dried Bacillus Subtilis Fermentation Extract, Salt, Vitamin E Supplement, Ascorbic Acid (Source of Vitamin C), Niacin Supplement, Biotin, Vitamin A Supplement, Thiamine Mononitrate, Beta Carotene, Calcium Pantothenate, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B12 Supplement, Vitamin D3 Supplement, Choline Chloride, Menadione Sodium Bisulfite Complex (Source of Vitamin K Activity), Folic Acid, Sodium Bicarbonate, Brewers Dried Yeast, Ferrous Sulfate, Manganese Sulfate, Zinc Sulfate, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydriodide, Flaxseed, Monosodium Phosphate, L-Lysine, Lignin Sulfonate, DL-methionine, DL-methionine Hydroxy Analog, (Propionic Acid, Sodium Benzoate, Potassium Sorbate (Preservatives)). (Free from Restricted Ruminant Protein Products per Title 21, CFR 589.200)

### Feeding Directions

Triple Crown 14% Performance Formula is designed to be fed to young performance horses, broodmares, breeding stallions, weanlings and yearlings. Triple Crown 14% Performance Formula will provide essential minerals and vitamins to growing and breeding horses, and horses training and performing in strenuous activities. Begin feeding Triple Crown 14% Performance Formula with as much good quality forage as possible along with free access to clean water and salt. **PERFORMANCE HORSES:** Feed Triple Crown 14% Formula as the sole grain source at a rate to maintain the horse's desired body condition and energy level. **BROODMARES AND FEEDING STALLIONS:** Feed Triple Crown 14% Performance Formula at a rate to maintain the mare's or stallion's desired body condition. If feeding less than 6 pounds daily of Triple Crown 14% Performance Formula to breeding stallions, also feed 1 to 2 pounds of Triple Crown 12% Supplement per day. **WEANLINGS AND YEARLINGS:** The amount of Triple Crown 14% Performance Formula fed per day should be adjusted in order to control the rate of growth and body condition within desired limits. If feeding less than 4 pounds per day of Triple Crown 14% Performance Formula to growing horses, also feed 1 pound of Triple Crown 30% Supplement daily.
